

Dear Parents/Guardians

Re: Medical forms for the Health Centre

In order to provide the best possible health care for your child whilst they are at New Hall School we ask parents/guardians to provide medical and health information. Enclosed are some medical forms for completion.

A Medical Questionnaire **must be completed for all students prior to commencing New Hall School** and returned to the Health Centre along with all 3 consent forms for the following; Operation, Suturing and Gluing, Medication. The Medical Questionnaire not only provides important information regarding students' health and medical history, but the signed form also acts as permission for the School to administer first aid in the event of an emergency. If your child suffers from asthma, diabetes, epilepsy, allergies, or a learning difficulty (e.g. ADHD) I would be grateful if you could complete the appropriate form from the attached. If your child suffers from any other medical conditions not covered by these forms, please complete the health care plan for a student with medical needs.

Please print and return completed forms direct to; Health Centre, New Hall School, The Avenue, Boreham, Chelmsford, Essex, CM3 3HS. Alternatively, forms may be scanned and emailed direct to the Health Centre via: healthcentre@newhallschool.co.uk If you require further information regarding the completion of appropriate forms, please do not hesitate to contact the Health Centre Team at New Hall School via: Healthcentre@newhallschool.co.uk.

Yours sincerely

Mr P Davey
HEALTH CENTRE MANAGER
