PART ONE

1. Bursaries, Boarding Awards & Armed Forces Awards

All places at the School remain subject to the School's Admissions process (*See Admissions Policy for general admissions criteria*).

A bursary at New Hall is defined as a means-tested remission of School fees. The School makes available significant bursaries (of up to 100% of fees), to help students entering the School and current students whose parents would not otherwise be able to afford a New Hall education. The School is committed to make provision, where possible, for financial assistance with fees for deserving students who would otherwise be excluded purely on the basis of family finances. **Please also be aware that, for the academic year 2022-23, the Governors have established a hardship fund to support existing students to remain at New Hall School, with priority given to those in examination year groups. There are no new bursaries available for incoming students in September 2022. Parents of joiners will need to provide assurance of the mean to pay the School fees in full.**

Application for a bursary is made by completion of a Blue Form, by 8 January of the year of entry, which is available from the Registrar or Finance Department. The Blue Form includes a confidential statement of income, savings and assets and is submitted to the Head of Finance, together with supporting documentation as required. The first stage of the application involves an assessment of the financial data provided. If this demonstrates eligibility, in principle, for a bursary, then the parent/s may be invited in for an interview with the Head of Finance. In addition, the School may require a home visit as part of the review and financial background checks. This may result in the application going forward to the meeting of the Bursaries Committee in February of the year of entry. In exceptional circumstances, late applications for a bursary may be considered, particularly if these are for existing students, whose parent/s experience sudden financial hardship, which would otherwise necessitate the student leaving the school. (*The full details of the application process are set out in the Bursaries Guidelines at Appendix A.*)

There are limited funds available for bursaries and, in the case of there being more eligible applicants than funds available, the final decision on any award will require Governor approval. There is a Bursaries Committee, which includes three Governors and two members of the Senior Leadership Team.

The School has a designated bursaries fund. One source of funds is from parents who do not require the monetary award attached to a scholarship in order to afford the School fees. They are invited to donate part, or all of the award to a designated bursaries fund, to assist those in special need of assistance with fees, who would not otherwise be able to attend the School.

All bursary awards are reviewed annually and a further means-test is required each year, to determine whether a significant change in financial circumstances has occurred.

1.1 Nursery (ages 1-4) and Preparatory Divisions (ages 4-11)

No bursaries are available for New Hall Nursery Division. Subject to space being available in a year group, the Preparatory Divisions make available two bursaries, of up to 100% of fees, for practising Catholic pupils, or children of outstanding academic ability from Catholic primary schools, who would not otherwise be able to afford to join the School. The Preparatory Divisions may grant staff bursaries for New Hall School support staff children, subject to funds.

1.2 Senior Divisions (ages 11-18)

Subject to there being space available in a year group and the necessary funds being available, a limited number of bursaries may be awarded to students whose parents would not otherwise be able to afford the fees or who have recently experienced particular hardship. Priority for bursaries is given to students of high academic ability, those with outstanding talents (e.g. in music or sport) or those who have particular pastoral or boarding needs. The Senior Divisions also make available staff bursaries for staff children. Although there are limited funds available, the School would seek to provide a bursary for an existing student in a public examination year, if there was unexpected financial hardship that would otherwise cause the student to leave at a point that could seriously affect his or her examinations. In the event that funds are insufficient to cover all eligible applicants, preference would be given (in no particular order) to students currently in Years 9-11, students currently in Sixth Form, new entrants who have won top scholarships/awards, or practising Catholics, where candidates of a similar ability are being considered for bursaries.

Subject to availability of funds, an additional means-tested remission of up to 100% of fees may be awarded to a recipient of a scholarship, if the school fees would otherwise be unaffordable. The School may also provide 100% bursaries for international scholars joining Year 12, who have been identified by the HMC Scholars organisation and selected by the School, subject to the availability of funds. Students will only be considered for bursaries/continuation of bursaries, if they have a good work ethic, good academic achievements and good conduct and they will be required to maintain these high standards during the time of their receipt of the bursary.

1.3 Boarding Award (*internal or external candidates*)

In exceptional circumstances, the Principal has the discretion to grant awards, e.g. based on outstanding academic/co-curricular achievements, to pupils who are joining the School as full boarders. These are only awarded if there is sufficient space in the Boarding House and on the recommendation of the relevant Head of Boarding. These are normally awarded for 1-2 years, and are reviewable annually. The Award discounts the full boarding fee to the level of day fees. Subject to a means-test, an additional remission of up to 100% of the overall annual fee may be granted.

1.4 Armed Forces Award

The New Hall Armed Forces Award for full boarders (girls and boys aged 7-18) ensures that families in this category only pay 10% of the annual full boarding fee. The full boarding fees are discounted for those in receipt of MOD Continuity of Education Allowance (CEA). The MOD insists that eligible personnel make a minimum contribution of 10% towards the school fees, but they will not fund more than the maximum amount that they set each year as

boarding school fees are generally far above this figure. As a result, the School sets the fees for eligible families so that the minimum parental contribution permissible under MOD CEA rules applies. If the candidate is awarded a scholarship/award for outstanding performance, this will confer scholar's privileges and the relevant accolades but will be represented by a non-monetary Honorary Award.

PART TWO

1. Scholarships & Awards

New Hall School offers scholarships/awards at Year 5, Year 7, Year 9 and Sixth Form, which confer a number of benefits and responsibilities. The School celebrates the honour of all achievements. Students who win scholarships/awards gain an important benefit in terms of public recognition, as well as university/apprenticeship/job applications and references. There is a special provision for those identified as Most Able & Talented (MAT); scholars/award holders who are placed on the MAT Register are afforded additional target setting, monitoring and reporting. The financial value of scholarships normally ranges from £250pa to £5,000pa. Scholars are expected to be exemplary students and to represent the School in the relevant areas. Year 7 and Year 9 scholarships/awards are assessed separately for boys and girls and each is offered in both the Girls' Division and the Boys' Division.

A number of Year 9 scholarships are for external applicants only. For these scholarships, an internal candidate may only apply if they did not join the School at the start of Year 7, and/or did not sit the entrance assessment in the Michaelmas Term prior to Year 7.

Assessment is based on performance in the New Hall entrance assessments, as appropriate to the point of entry. The current headteacher's report/reference and the student interview at New Hall are important. Following the assessments, students will be ranked and scholarships/awards will be offered to the best performing students. Where candidates of a similar ability are being considered, preference may be given to full/weekly boarders and Catholics.

Subject to the availability of funds, an additional means-tested remission up to 100% of fees may be awarded to a recipient of a scholarship, if the fees would otherwise be unaffordable. In the event that parents do not require the scholarship in order to afford the School fees, they are encouraged to donate part or all of the award to a designated bursaries fund.

PART THREE

APPENDIX A

BURSARIES GUIDELINES

1 General

The Governors of New Hall School are committed to broadening access to the School by offering to eligible parents/guardians means-tested financial support with the payment of School fees. Such support is known as a bursary and these may be awarded in the form of a discount of up to 100% on fees payable, depending on the financial, compassionate or other pertinent circumstances of applicants. Bursary awards are subject to repeat testing of parental means each year and may be varied upwards or downwards, depending on parental circumstances. Awards are made by the Governors and after taking into account a family's financial circumstances e.g. their savings, investments and realisable assets, as well as their income, the size of their family, any other persons dependent upon them and like factors.

Requests for financial support usually fall into two categories:

- New applicants to the School, where a place has been offered but parents/guardians are unable to fund the fees. (Please note that there are no bursaries available for incoming students in September 2021, due to a need to prioritise emergency funds for existing families affected by the pandemic.)
- Existing students where a change in parents'/guardians' circumstances has resulted in difficulty in meeting fees and may result in the child being withdrawn part way through a stage of education.

2 The Application Process

Bursaries may be made available to parents/guardians of children entering New Hall School (see the Admissions Policy). They are awarded at the discretion of the Governors. The Principal and Head of Finance are responsible for the management and co-ordination of the process.

- **Step One:** Parents/guardians seeking a bursary are required to complete an application form, which seeks to establish the financial circumstances of the household. The form, which requests details of income and capital, must be accompanied by full documentary evidence. The completed forms, together with the necessary documentary evidence, are to be submitted to the Head of Finance no later than **8 January** in any year for bursaries to start the following September.
- **Step Two:** The Head of Finance assesses all applications in order to establish the likely level of support, which will be required in order to allow the child to attend the school in their first and subsequent years. This may involve the Head of Finance, or her/his representative,

undertaking financial background checks, home visits, interviewing applicants to review the application details and to ensure the information has been correctly interpreted and the basis of the financial assessment has been fair.

- **Step Three:** The Head of Finance prepares a recommendation, which is considered with the Principal, and a joint recommendation is then reached.
- **Step Four:** The joint recommendation is presented to the Bursaries and Scholarship Committee for approval.
- **Step Five:** The parents/guardians are advised of the outcome of their bursary application **at the end of February.**
- **Step Six:** Parents/guardians are then required to sign a letter accepting the place at the School and an acknowledgement agreeing to any conditions relating to the bursary.

3 The Case for Assistance

The Principal and Head of Finance will consider a number of factors when making the judgement as to the justification for support, and the extent of such support. In the main, the child's suitability for the School is the first consideration in granting support.

3.1 Suitability: In assessing a child's suitability, attention will be given to the academic assessment result of each applicant, but potential will also be considered as well as actual achievement. Bursary funds are limited and those judged most suitable will be given priority as those likely to gain most from the educational provision. Each student to whom support is offered must, in the opinion of the Principal, be likely to make sound academic progress following admission and possess the potential to develop the quality of his/her work, and benefit from participation in the wider, co-curricular activities on offer at the school. In normal circumstances, each applicant should meet the School's normal academic requirements. Previous and current school reports will be consulted for evidence of good behaviour.

3.2 Financial Limitations: Each case is assessed on its own merits and awards are made accordingly, subject to the School's ability to fund these within the context of what is viable within the overall budget. It is recognised that judgements about what sacrifices a family should make to pay school fees will be personal. However, the School has a duty to ensure that all bursary grants are well focussed and so, as well as current earnings, other factors which will be considered in determining the necessary level of grant will include:

- The ability to improve the financial position or earning power of the family. For example, where there are two partners, both would be expected to be employed unless one is prevented from doing so through incapacity, the need to care for children under school age or other dependants, or the requirements of their partner's work.
- Opportunities to release any capital. Significant capital savings and investments would be expected to be used for the payment of School fees, as would equity value in houses.
- In cases of separation, the contribution made by the absent parent.
- Contribution to household costs by other, wider, family members, any adults unrelated to the child or by outside sources (e.g. other charitable organisations).
- Acknowledging that others might have a different view; the School considers that the following would not be consistent with the receipt of a bursary:
 - Frequent or expensive holidays, including long trips offered by the School
 - New or luxury cars

- Investment in significant home improvements
- A second property/land holdings

New Hall reserves the right to undertake financial background checks and to make home visits to assess property and assets owned.

3.3 Other Factors: It is recognised that, in addition to academic ability and financial constraints, there may be other circumstances, which should be considered. These include:

- Where a child has siblings at New Hall
- Where the social needs of the child are relevant (e.g. may be suffering from bullying at their present school)
- Where a parent/guardian is terminally ill or is unable to secure permanent employment due to poor health
- Where a separation has resulted in the child having to be withdrawn from the School adding to the stress of coping with the parents/guardians separating

4 Existing Students – Change in Family Circumstances

Within overall budget funding, the School will, in normal circumstances, set aside each year a Hardship Fund, for cases of sudden, unforeseen need or where applications meriting bursary assistance are received out of the normal calendar cycle for bursary submission, scrutiny and award. This sum will be set within budgetary constraints. Parents/guardians with a child at the School whose financial circumstances suddenly change may apply for a bursary to the Principal and/or Head of Finance, explaining their situation and completing the application form. Such awards are subject to the availability of funding and cannot be guaranteed, but if an award is made, it may be for a limited period.

5 Annual Review

All bursary awards are subject to repeat testing of parental means each year and may be varied upwards or downwards depending on parental circumstances. Current bursary holders will be issued with repeat means testing forms in November each year. For those previously in receipt of bursaries, the Principal and Head of Finance, in making their joint recommendation to the Bursary Committee, have the discretion to recommend to the Governors the reduction or withdrawal of an award not only where a student's progress, attitude or behaviour has been unsatisfactory but also where the parents/guardians have failed to support the School, for example by the late payment of any contribution they are making to the fees.

6 Confidentiality

The School respects the confidentiality of bursary awards made to families and it is a condition of the award that recipients do likewise.

7 Other Sources of Bursary Assistance

In addition to the School's bursary fund, there are a number of educational and charitable trusts, which provide assistance with tuition fees. In the majority of cases, these are to assist children who are already attending a fee-paying school and due to a change in circumstances may be

unable to remain. New Hall School encourages parents/guardians to apply for support where it is felt a good case can be made for assistance. Further information on how to pursue such assistance may be obtained from:
